

2nd Annual

World RNA-Based Therapeutics & Vaccines Summit **SOUTH KOREA**

10-12 November, Incheon | 11월 10일~12일 | 인천

What to Expect:

행사 개요:

90+

Industry Attendees

54%

International Presenters

25+

World-Class Speakers

8

Hours of In-Person
Networking

Top Sessions:

놓칠 수 없는 행사 하이라이트:

Rznomics' Circular RNA Platform: From Engineering to Functional Validation

*Presenter: Kyung Hyun Lee, Chief Researcher, **Rznomics***

Minimal Chemical Modification to the 3' -Poly(A) Terminus Elicit Durable Protein Expression of Linear mRNA in Mice & Non-Human Primates

*Presenter: Kosuke Nakamoto, Principal Scientist, **Eisai***

A Novel Hydrophilic Nanoparticle mRNA-Based Platform to Deliver Antigen-Specific Immune Therapies in Autoimmune Diseases

*Presenter: Kunwoo Lee, Chief Executive Officer, **BreezeBio***

Attendees Include:

참석 기업:
